Gear Assistance Program

Open to all Corps Members to support the purchase of shoes, rain jackets, and work pants

On all of our Crews, there are a few pieces of personal gear that help keep you comfortable and safe so you can do your best work.

There is financial assistance available for support in purchasing some pieces of gear:

- Footwear: all leather boots for Conservation Crews, sturdy sneakers for Farm Crews
- Rain jacket (Conservation Crew only)
- Long Pants
- Socks

If you want to see the full gear list for your specific crew (including what VYCC provides) check out [the Your Season section of our website](#).

How to get gear:

After you've accepted a position, as part of your onboarding paperwork process you will be directed to [the Your Season section of our website](#).

Under your position title header (Crew Leader, Crew Member, etc) in the "items to bookmark/ keep" header you will find the ["Uniform Survey form"](#) where you can tell us about your sizing info for uniform shirts. On this same survey we also ask a few other questions about types of gear you might need. On that form, you'll see a specific question about gear needs from this program. You'll let us know your size and we will give you the gear at the start of your season.

Anything you buy through this program will go home with you at the end of the season so you can use it on your next awesome outdoor adventure.

Got questions? You can ask for more details from the VYCC staff doing your interview or email Recruitment@vycc.org
